If the game will end with draw, teams will have penalty shooting, 1 penalty each team until one team has won.

The Deck referee will allow for about 20 seconds after a goal for replays.

If a match gets a greater goal difference than 10 goals the match time will change from effective to ineffective.

Each team can use maximum 20 players for each round and unlimited number of team players for the season.

The players of each team should be wearing the "same" uniform (trunks, caps) and numbers on their fins but exceptions are allowed.

Use of a yellow ball only.

From S1/R2 boxing on the ball with a fist instead of just open hand will be allowed.

Other rules are according to the International UWR Rules including 7.6 The players play at their own risk = make sure all people involved have an insurance!

Match start sequence:

- We use the normal "1 minute" signal to initiate the match start sequence.
- At the 1 minute signal the captains will swim up to the deck referee for a handshake which the camera can close in on and give the commentators an option to present the captains.
- After this the teams should get ready and wait for the "both teams ready" question followed by 3-4 seconds before the start of the match signal.

All matches need to have a winner and if equal:

- Penalty shoot out directly (no break before)
- One penalty shoot out round until there is a winner
- Both defender and attacker have to be new for each penalty
- Dark team starts with attacking
